[replaces mother-sister and industrial estate on the u.s.
version of the lp] Alright we're going to go back
To 1940 No money And I live in berlin I think I'll join
up Become a camp guard No war for me An old jew's
face dripping red I hate the prisoners I hate the
officers There's no fight I think I'll join, The red
rose, Leave belsen I'll go to switzerland A human
resistor Don't think, ask him Present : I don't like
them Said ian In his black-out threats I think I'll drop
out Become a no-man And live my rules But I'm the sort
that gets Out of the bath with a dirty face Everyone I
meet's the same now No brains or thought A good case
for the systems we like - we get Human race Various
times Don't think, ask him Future: 1980 Black
windows And smokey holes My head is full of lead And
the beer is so weak Since they got rid of time around
here Dr. doom fresh from salem And the witch trials The
lathe of heaven Time mistaken Three places at
once Human race Don't think, ask him Ask him Ask him
