Unfortunately I'm coming from a bad end  
And I'm destined for a bad end  
But hanging around with you is like blood outta stone  
Getting stuff outta youse is like blood outta stone  
Blood outta stone  
You're history  
You've quit existation  
You're green grub  
And if I had any guts  
I'd turn those money tables up  
You dis-corporate bore  
You make me tired to the bone  
Cos getting things outta you....  
When all your friends have dissolved  
And you're yakking on the phone  
You're techno-grounded  
You're blood outta stone  
Might appear deranged  
But you're blood outta stone  
You're mutton dressed as lamb  
Cos you're blood outta stone  
At least I've got an aim, chick  
Blood outta stone  
But I'm working to an aim
