This has been said so many times that I'm not sure if it matters,
But we never stood a chance and I'm not sure if it matters
If you are the shores, I am the waves begging for big moons, oooooons.
I'm writing letters to addresses in a ghost town, no oh oh oh
(your secret's out)
I know this hurts, it was meant to (it was meant to)
Your secrets out and the best part is it isn't even a good one
And it's mine over you don't don't matter

This has been said so many times that i'm not sure if it matters
But it must be said again that all us boys are screaming into microphones for attention because were just so bored,
Oh oh oh oh oh oh
We never knew that you would pick it apart,
Oh I'm falling apart to songs about hips and hearts
(your secrets out)
I know this hurts, it was meant to (it was meant to)
Your secrets out and the best part is it isn't even a good one.
And it's mine over don't don't matter

I used to obsess over living
Now I only obsess over you
Tell Me you'd like boys like me better
In the dark light in on top of you

This has been said so many times that i'm not sure if it matters
This has been said so many times that i'm not sure if it matters
This has been said so many times that i'm not sure if it matters
This has been said so many times that i'm not sure if it matters!

I know this hurts, It was meant to (it was meant to)(yeah)
Your secrets out and the best part is it isn't even a good one
And it's mine over you don't don't don't don't matter

(said) From Day one i talked about getting out
But not forgetting about
How all my worst fears are letting out
He said "Why put a new address on the same old loneliness"
When breathing just passes the time
Until we all just get old and die
Now talking's just a waste of breath
And living's just a waste of death
And why put a new address on the same old loneliness
And this is you and me, and me and you until we've got nothing left
