

Fall Out Boy "Calm Before The Storm"

I sat outside my front window, this story's going
somewhere
He's well hung and I am hanging up
There's a song on the radio that says
"Let's get this party started, let's get this party started"

What you do on your own time's just fine?
My imagination's much worse, I just never wanna know
What meant the world had folded
Like legs and fingers holding onto what escapes me
What he has, a better kiss that never lasts

You said between your smiles and regrets
Don't say it's over
Dead and gone, dead and gone

Calm before the storm
Set it off and the sun burnt out tonight
Reception less than warm
Set it off and the sun burnt out to

This is me standing in the arch of the door
Hating that look that's on your face
That says there's another fool like me
There's one born every minute
There's one born every minute

What you do on your own time's just fine?
My imagination's much worse, I just never wanna know
What meant the world imploded, inflated then
demoted
All my oxygen to product gas and suffocated my last
chance

You said between your smiles and regrets
Don't say it's over
Dead and gone, dead and gone

Calm before the storm
Set it off and the sun burnt out tonight
Reception less than warm
Set it off and the sun burnt out to

Calm before the storm
Set it off, set it off

Calm before the storm, set it off
And the sun burnt out tonight
Reception less than warm, set it off
And the sun burnt out tonight

The sun burnt out tonight
The sun burnt out tonight
