Shallow like the shoreline during low tide  
But my hopes are not quite as high  
Spotted her faults but she spotted mine

She left me for herself  
Considering I would too

Go figure, I'm bigger than that  
Go figure, I'm bigger than that

Battles only halfway done, I might look young  
But I'm no less defeated  
How's the weather up there?

Left me for herself  
Considering I would too

Good God I wish, I was tall  
Good God I wish  
Good God I wish, I was tall  
Good God I wish

Good God I wish, I was tall  
Good God I wish  
Good God I wish, I was tall  
Good God I wish

Go figure, I'm bigger than that  
Go figure, I'm bigger than that  
Go figure, I'm bigger than that  
Go figure, I'm bigger than that
