

Fall Phase "Goodbye"

Visit "[Goodbye](#)" on MotoLyrics.com

There's a voice inside my head
Telling me to disappear
I guess you're about to leave
That much is very clear
I probably should've realized
You were slipping away right before my eyes
But I was blinded
Blinded by your love
Blinded by the smile
I'd been dreaming of
But now it's dark the light is gone
And I can't stay here for too long
So it's goodbye
I won't hold you any longer
These feelings growing stronger
I'll see you in my dreams
At night when I'm asleep
One day you'll see the light
I used to see
When I was blinded
Blinded by your love
Blinded by the smile
I'd been dreaming of
For now it's dark the light is gone
And I can't stay here for too long
So it's goodbye
Just for now
You'll come around
It's just goodbye
For a little while
Until you're blinded
Blinded by my love
Blinded by the smile
I'd been dreaming of
For now it's dark the light is gone
And I can't stay here for too long
So it's goodbye
