#### INTRO

Ain't comin back (back back)  
It took some time (time time)  
For me to realize (-lize, -lize)  
You're not the one (Not the one)

I was afraid (-fraid, -fraid)  
Tears stain my face (face, face)  
But i can survive (-vive, -vive)  
You're not the one (not the one)

You're gone and i'm glad, glad you're gone

#### VERSE A

The days grow shorter and the nights much longer  
You left me weak but now i'm stronger  
The evil in you brought out the good in me  
But while it did you stole my fantasy

I first saw you bout a year ago  
Gave you a smile you murmured "hello"  
We were together for a while, and it was perfect  
Each kiss, each smile

#### CHORUS

What i saw in you i'll never know  
You left me alone and afraid  
How could i have guessed you would stoop that low?  
To get me back for what i never did  
Gone, gone, you're gone gone  
To tell you the truth i ain't sorry that you're  
Gone, Gone, Glad You're Gone

#### VERSE B

There was a dream in my head  
That we would never part  
But i always had that sense of dread  
That you would leave and steal my heart

I was right but this time  
Right was wrong and wrong was right

Nothin left but love past it's prime  
You ain't outta mind, but outta sight baby

#### CHORUS

INTRO (w/ chorus in background)

#### VERSE C

The pain you put me through  
Made me better than ever before  
Unable to trust a man like you  
Cautious but the same ol' me

Who i am you'll never see  
For your one mistake was leavin me  
I hope you regret it i hope you do  
May sound wrong but you knew me once  
I won't waste my time feelin sorry for you babe

#### CHORUS X2

#### OUTRO

Gone, Gone, you're gone gone  
To tell you the truth i aint sorry that you're  
Gone, gone glad you're gone
