Come stand inside the drum head
Don't it hurt your brain?
Count off another hundred
Show them to the train

And everything would be fine
If I could just have my way
Wouldn't take me one day, uh uh
You were a lovely baby
How'd you get this way?

Show Jenny to the window
She keeps trying to fly
Here door for the last four days
Hasn't let her by

And everything would be fine
If I could just have my way
Wouldn't take me one day uh uh
Throw down your drum sticks baby
Jump up and get away.
