

## Falling Cycle

### "Before Night Falls"

I saw you in my dreams  
And woke up empty handed  
Emotions left me there to wait and sit back  
Everyday I look for you  
Everyday I wait for you  
Right now I can't feel my heart  
They've gone and ripped it out again  
But I want to see you  
I want to feel you  
So long I've waited for you  
Another day to spend by myself  
Everyday I look for you  
Everyday I wait for you  
Someday I will find you  
Someday we will be together
