Well the second star has shown  
Keep your wishes to yourself  
Whatever you said to make her stay  
Was worthless  
(Her smell still fills the air)  
It's a taste, a taste I can't let go  
(It's under the surface here)

I think my ribs are breaking from this weight  
I'm waiting to leave you wanting, but I'm too late  
I thought that I could always rely on my instincts  
I think my lungs are too scared to breathe  
But I think this heart is ready to believe  
Escape, just run... her back is turned  
The nerves are all from eyes on you.

I stand here between the earth and the sky  
With the wind at my back and the sun in my eyes  
The many pieces of our conversations  
Have come together tonight I'll sing  
I stare up so very lost tonight  
With strings in my hands to turn the stars out like lights  
The many pieces of our conversations  
Have come together tonight we'll dance.

Well the second star has shown  
Keep your wishes to yourself

Play soft beside your love  
Step light upon the dust  
You test the hands you hold  
You breathe in air you stole...

Will you sing with me dear august?  
"let the amber lights forgive our names"

There is a moment that will always get the best of me,  
you in my arms  
And yours eyes inside my soul...  
There is a moment that will always get the best of me,  
When I'm there with you I forfeit control
