Take a look around kid this is what you killed to view
As shadows walk across her throat she lies wake for
you
Seventeen with everything she ever wanted at her tips
Given all away for the feeling of colliding hips

Within a whisper we both wait for her faith to cleanse
But the subtle grip she takes rips out the veins in my
hands
Down by the lake line there's a body of such innocence
Turn out the stars

I'll never follow you
I'll never admit love
I'll always hide the truth
The lovers way

Her trembling face (as warm as tears do fall)
With sin or grace (they bleed this in this beautiful night)
Her trembling face (as warm as tears do fall)
With sin or grace (you're beautiful)

Lights are drowning everything as the stars begin the
cry
But somehow in the dark the blue climbs up out of your
eyes
Up by the oak tree swing there's a carving I bled to
leave
Here I sit so still and quiet enough to hear you say

Alone whisper this is it

She cannot be alone
Finding her way back home now

I'll try
Not to leave my prints on this turn out the stars

I'll never follow you
I'll never admit love
I'll always hide the truth
The lovers way (down)

Within a whisper we both wait for her faith to cleanse
But the subtle grip she takes rips out the veins in my
hands
Down by the lake line there's a body of such decadence
If this is not the end then I will end this for you
Within a whisper...
Lights out verses embers running south
