So this is real, the window sill, it cannot heal
All the secrets are here now
All I've known, my cover's blown, the ages shown
You know that they all fake the hope

Neon lights, the fade of night, the fear of heights
The complex and effects start
Breaking tide to bleach the white and early light
And water only from His side

All alone
There's whispers of defenses gone

This is the way, this is the motion
Let go now
This is the threat, this is the ocean
Let go now

This is the way, this is the motion
Let go now
This is the threat, this is the ocean
Let go now

Let go now

And so it's made, the frozen shade has turned my
gaze
The effect is in motion
Strength is gone, my breath is on the last, is drawn
You know that it will soon be gone

Still I wait in today, complicate
And all time is just frozen
I see through, was never you and what you said
The hope is where His hand has bled

All alone
There's whispers of defenses gone
All alone
There's whispers of defenses gone

This is the way, this is the motion

Let go now
This is the threat, this is the ocean
Let go now

This is the way, this is the motion
Let go now
This is the threat, this is the ocean
Let go now

Let go now, let go now
Just let go, just let go, just let go

This is the way, this is the motion
Let go now
This is the threat, this is the ocean
Let go now

This is the way, this is the motion
Let go now
This is the threat, this is the ocean
Let go now

This is the way, this is the motion
Let go now
This is the threat, this is the ocean
Let go now

This is the way, this is the motion
Let go now, let go now, let go now
