Step back you'll never know
Step back cos we are coming home
Step back you'll never know
Step back cos we are coming home
We're the ones
We walk amongst the light
And we're the ones
We came to burn this morning light
I guess you will never know
We're coming home
You know and I know
That we are never coming home
Sing home wa oh cos
We're all vampires in the light

You took control
But I could never let this go
You took control
But I could never let you go
You know we're the only ones

We're coming home
You know and I know
That we are never coming home
Sing home wa oh cos
We're all vampires in the light
