Across the bar-room floor
She walks though the door
I nearly hit the floor
It's time I want some more
She says, come over here
I whisper in her ear
She's says, come on, baby
It's time to have some fun
Tonight you'll be my one true love
Tomorrow on a list with the above
So, baby, show me everything
Show me everything

There's no us in lust
Baby, you can trust
Don't avoid the rush
There's no time so hush

She's back again
But will she be my only friend
And will I ever know
Sometimes it's hard to let this go
And when I look away
I see her everyday
All of these memories
All of these dreams
They're haunting me
But she will know
How hard it is to take it slow
So we both know
That we'll be going home
So, baby, show me everything
So, baby, give me everything
Come on, baby
