Two bottles of champagne
And all this nicotine
As the night draws to a close, yeah

Well you weren't the only one that night
And I'm sure that you'll put up a fight
But just get out of my head
(Just get out of out my head)
Get the hell out of my head, yeah

(You're not the only one for me)

[Chorus]
Don't look my way
I heard you say
Cos you're not the only one that's running
Through my veins this time

Don't walk away
I heard you say
Cos you're not the only one that's running
(You're not the only one)
Through my veins this time
[End Chorus]

Days went by
I never called you back to say
Outraged by what you heard

You'd barely even lay your head down to sleep at night
You always grip your pillow tight
You cried yourself to sleep
(You cried yourself to sleep)
You wouldn't let me leave, yeah

(You're not the only one for me)

[Chorus]
Don't look my way
I heard you say
Cos you're not the only one that's running

Through my veins this time

Don't walk away
I heard you say
Cos you're not the only one that's running
(You're not the only one)
Through my veins this time
[End Chorus]

[Chorus]
Don't look my way
I heard you say
Cos you're not the only one that's running
Through my veins this time

Don't walk away
I heard you say
Cos you're not the only one that's running
(You're not the only one)
Through my veins this time
[End Chorus]
