# "Take Good Care Of Your Children"

Visit "[Take Good Care Of Your Children](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Make your life worth living for  
Make it into something good  
Take good care of your children  
Mothers and fathers  
Show them that you love them  
Take good care of your children  
Sisters and brothers  
We all need a little loving  
Make our lives worth living for  
Make it into something good  
It's all here in our own hands  
So we better think positive  
Take good care of your children  
Mothers and fathers  
Show them that you love them  
Take good care of your children  
Sisters and brothers  
We all need a little loving  
Take your time and do it right  
Take it as a natural thing  
The future's in the ones we love  
So we better start to give  
Take good care of your children  
Mothers and fathers  
Show them that you love them  
Take good care of your children  
Sisters and brothers  
We all need a little loving  
Look at the kids  
Look at them smile  
Stop what you're doing  
And listen to me for a while  
Take good care of your children  
Mothers and fathers  
Show them that you love them  
Take good care of your children  
Sisters and brothers  
We all need a little loving
