"Goodnight Girl"

Visit "[Goodnight Girl](#)" on MotoLyrics.com

You hear me so clearly
And see how I try
You feel me so hear me
And tear me apart

And I won't tell a soul
I won't tell it all
And do they have to know
(Do they have to know)
About my goodnight girl

(CHORUS)

Caught up in your wishing well
Your hopes and sadness
Take your loving promises and make them last

You keep me so near you
And see me so far
And hold me, and sell me
And deep in your heart

And I won't tell a soul
I won't tell it all
And I won't let them know
About my goodnight girl

(CHORUS)

Doesn't matter how sad, I need you
Doesn't matter how hard I try
Just remember the same old reason
Reflected in your eyes you said you wanted me

(CHORUS)
