No more lonely nights
No more rainy days
Light and pride inside
Cause I know that you'd
Be right here with me

In your angel eyes
I can see the stars
(See the stars)
The lotus, sunny skies
You're my life
And you're my heaven

I've waited by the phone
But now I'm not alone here anymore

The way you love me
The way you fill me with
The notion of emotion
I never let you going
The way you hold me
The way you touch me
And the way you kiss and hug me
That's what I do I really love you

I knew it from the start
You'd open up my heart
And now I do believe in
All the sailing lovesongs baby

I've waited by the phone
But now I'm not alone here anymore

The way you love me
The way you fill me with
The notion of emotion
I never let you going
The way you hold me
The way you touch me
And the way you kiss and hug me
That's what I do I really love you

I couldn't make it on my own
Now I know where I belong
I can't live without you
Now that I found love

Oh I never knew this could be true
(I guess this could be true)

The way you love me
The way you fill me with
The notion of emotion
The way you hold me
The way you touch me
And the way you kiss and hug me

The way I love you
The way I fill you with
The notion of emotion
I never let you going
The way I hold you
The way I touch you
And the way I kiss and hug you
Now I found love and I really love you

The way I love you
The way I fill you with
The notion of emotion
I never let you going
The way I hold you
The way I touch you
And the way I kiss and hug you
That's what I do I really love you

Ohohoh

That's what I do I really love you
