You'll never take control of me!
Pain of the action
You'll never take control of me!
Fatal attraction

Walk up in the club and smile, with a pretty face
Body like a modeling girl, should have never walking
away (should have never)
Should have never asked you to stay (should have
never)

Starting everything was hot, now it's getting cold.
Starting everything was lovely, now I'm starting to
lose my mind (should have never)
feel like I've done a crime

Bridge

I can't take no more I'm better off without you
cuz all you do is bring me down. You're making
pieces of my heart.
Are you satisfied than why won't you let me go?
Is it hard for you to see you bring me nothing but
down?

Chorus

Your the Pain of the action
your taking up my soul
your a fatal attraction
that never will let go of me
you'll never take control of me

so you took me by surprise, I must admit
when I was falling for you, but you threw it all away
(should have never) should have never asked you to
stay

Bridge

I can't take no more I'm better off without you
cuz all you do is bring me down. You're making
pieces of my heart.
Are you satisfied than why won't you let me go?

Is it hard for you to see you bring me nothing but
down?

Chorus

Your the Pain of the action
your taking up my soul
your a fatal attraction
that never will let go of me
youâll never take control of me

Chorus

Your the Pain of the action
your taking up my soul
your a fatal attraction
that never will let go of me
youâll never take control of me

Cuz itâs so sad to see weâll never be,
nothing more than even friends
I despise that youâre faking you lied.
you better go out that door donât come back
anymore.

Chorus

Your the Pain of the action
your taking up my soul
your a fatal attraction
that never will let go of me
youâll never take control of me

Break it!

(Youâll never take control of me)
(Youâll never take control of me)
(Youâll never take control of me)
