### "As long as we're together"

We can change the weather, as long as we're together  
Cherry pies and feathers and lazy afternoons  
And it feels alright, as long as we're together  
And it feels alright, 'cause baby I know You and I can  
make it last forever

You can leave whenever, but let me add, however:  
We all need some pleasure, to fill our empty rooms

We can change the weather....

We can take a ride  
and go driving into midnight, naked in the moonlight  
Crystal blue surprise,  
as we're swimming in the sea of love falling from the  
sky above

We can change the weather....
