"As Long As We´Re Together"

We can change the weather, as long as we're together
Cherry pies and feathers and lazy afternoons
And it feels alright, as long as we're together
And it feels alright, 'cause baby I know You and I can
make it last forever

You can leave whenever, but let me add, however:
We all need some pleasure, to fill our empty rooms

We can change the weather....

We can take a ride
and go driving into midnight, naked in the moonlight
Crystal blue surprise,
as we're swimming in the sea of love falling from the
sky above

We can change the weather....
