I feel so hot tonight
My body's so alive
The rhythm's gonna start
The write is on the wall
Now work it out some more
No matter who you are
Just throw your cares away
Ain't no doubt about it
You can't hesitate
If it's good for you to do it
Come on
Dance with me
Let the music take ya over
Let it move ya, groove ya
Just keep it comin'

Workin' it back to front
Hitting it like the ball
Everybody getting some
We're doin' it, doin' it
Ready to blow our minds
Makin' it dynamite
Even if it takes all night
We're doin' it, doin' it
All right

Now that you're getting loud
It's time to get undone
To the bumping ground
So step up to the flow
And work it out some more
No matter who you are
Just throw your cares away
Ain't no doubt about it
You can't hesitate
If it's good for you to do it
Come on
Dance with me
Let the music take ya over
Let it move ya, groove ya
Just keep it comin'

Workin' it back to front
Hitting it like the ball
Everybody getting some
We're doin' it, doin' it
Ready to blow our minds
Makin' it dynamite
Even if it takes all night
We're doin' it, doin' it
All right

You can stop
Just get undone
The rhythm's got you bumping
To that funky sound
Let it move ya
Don't you get up off the floor
Thought I told ya
You gotta keep it comin'

Workin' it back to front
Hitting it like the ball
Everybody getting some
We're doin' it, doin' it
Ready to blow our minds
Makin' it dynamite
Even if it takes all night
We're doin' it, doin' it
All right

Workin' it back to front
Hitting it like the ball
Everybody getting some
We're doin' it, doin' it
Ready to blow our minds
Makin' it dynamite
Even if it takes all night
We're doin' it, doin' it
All right
