Mmm..

Ooohh

Ohh ohyeah

Ooooooh

Aha...

Living your life

In a way you always known

Waiting for a better place

A place you call your own

But do you believe that you're my nature

Do you believe in love alone

Can you open up your eyes and see

How hard your money won

So come on baby

'Cause I really wanna know

(I wanna know)

Ref.

If you dare

Look inside of you

And if you care

You know what to do

All your expectations is up to you

Take a look at your self

One more time

When you're feeling the pain

All the way down to the ground

Face your self a look ahead

For the soul that you have found

You better believe that you're my nature

Could you believe in love alone

Reach out for a better place

A place where you belong

'Come on baby

'Cause I really wanna know

(I wanna know)

Ref.
If you dare
Look inside of you
And if you care
You know what to do
All your expectations is up to you, yeah
Take a look at your self
One more time

Oh, one more time

All this fire inside of you
Can't deny it

When this hiding lie
Is hunting you
Take this hard on mind
And far it

Ref.
If you dare (ooh)
Look inside of you (Look inside of you)
And if you care
You know what to do
All your expectations is up to you, yeah
Take a look at your self (Take a look inside of you)
One more time

If you dare (If you dare)
Look inside of you
And if you care (Look inside of you, baby)
You know what to do
All your expectations is up to you (You know)
Take a look at your self
(Oh, you know what to do)
(Take a little look)

One more time
