I heard her voice through diamond glass, my lady she
was near.

And I reached my arms and closed my eyes, oh my
heavenly dear.

And music played, Tchaikovsky try in perfect
harmony.

To rejoin what's lost and late in the rhythm of three.

So we danced, we forgot
what was real and what was in our minds
side by side we lived our lives.

When the heavenly breathes around us, into an earthly
air

We will dance like lovers, and fly anywhere (anywhere)
Nature was told to fall, but twist in the rules from God.
But the world kept on turning, while heaven went side
by side.

She smiled and said ;
Don't be afraid when I touch your heart,
though doubts are only fears that kills the beautiful
parts
That we call love, and believe so keep on dreaming boy.
And lead me through the endless room in the moves
that I enjoy.

So I tried for a while to leave the world right by my side,
closed my eyes till I saw the light

When the heavenly breathes around us, into an
earthly air

We will dance like lovers, and fly anywhere (anywhere)
Nature was told to fall, but twisted the rules from God.
But the world kept on turning while heaven went side by
side.

I can hear myself laughing and crying when dancing
is all about to end,
when believing is facing the missing from heaven I'll

touch her again
When I loose my mind...

So we danced, we forgot
what was real and what was in our minds
Side by side we lived our lifes.

When the heavenly breathes around us, into an earthly
air
We will dance like lovers, and fly anywhere (anywhere)
Natur was told to fall, but twist in the rules from God.
But the world kept on turning, while heaven went side
by side.

So I'll always close (you close) my eyes.
