Oooo oooo oooo oooo oooo oooh

I heard her voice through diamond glas,
my lady she was near
and I reached my arms and closed my
eyes oh my heavenly dear

Music played, Tschaikowsky try
In perfect harmony
To rejoin what's lost and late
In the rythm of tree

So we danced, we forgot what was real
and what was in our minds
Side by side, we lived our lives

Ref.

When the heavenly breaths around us
Into an earthly air, we will dance like lovers
and fly anywere (anywere)
Nature was told to fall , by twisting the rules
from god
but the world kept on turning while heaven
went side by side

oooo oooo oooo oooo oooo oooh

She smiled and said:
- Don't be afraid when i touch your heart
The doubts are all the fears that killed
The beautiful part
That we called love and believe so keep on
dreaming boy
and lead me through the endless room in
the moose that i enjoy

So i tried for a while to lead the world
right by my side
closed my eyes till i saw the light

Ref.

When the heavenly breaths around us

Into an earthly air, we will dance like lovers
and fly anywere (anywere)
Nature was told to fall , by twisting the rules
from god
but the world kept on turning while heaven
went side by side

I can hear myself laughing and crying when
dance is all about to end
when believing and it's face and the missing
from heaven i thought her again
when i loose my mind ..

ooo ooo ooo ooo ooo oooh

So we danced, we forgot what was real
and what was in our minds
Side by side, we lived our lives

Ref.

When the heavenly breaths around us
Into an earthly air, we will dance like lovers
and fly anywere (anywere)
Nature was told to fall , by twisting the rules
from god
but the world kept on turning while heaven
went side by side

So i'll always close (you close) my eyes
