Constant yearning  
Constant pain  
For you I hold on  
For you I remain  
But all I wanted was your time  
But what you gave me wasn't enough

I can learn to live this way  
If you turn and walk away  
I will learn to love again  
I'll do it over and over again

Constant burning

Constant strain  
It feels like moments  
Last for days  
But all I wanted was your time  
But what you gave me wasn't enough

I can learn to live this way  
If you turn and walk away  
I will learn to love again  
I'll do it over and over again
