(Fever's got me sweating and you know I'm burning up)
Hey, you, did you turn up the heat
It's getting hotter and I'm growing weak.
Maybe it's because you're standing close to me
I'm comin down with something feverishly.

I think my body's in shock
It just don't know what to do.
I feel my temperature rising past 102.

Fever, fever, fever, fever

Fever
(Turn up the heat)
Fever
(Come on and get sick with me)
Give me what you got, cause you know it's getting hot
Fever
(I'm turning flush)
Fever
(I'm burning up)
Fever's got me sweating and you know I'm burning up.

Yeahhh, whoaaa, yeahhhh, whoaaa

F-F-F-Fever's got this thing that I just can't shake
I tried to sweat it out but it would not break.
My heart is taking all the heat that it can take
Just let it burn me up for heaven's sake!

Hot- hot- hot- hot to the touch
To the N'th degree
Thermometer's reading 'bout infinity.

Fever, fever, fever, fever

Fever
(Turn up the heat)
Fever
(Come on and get sick with me)
Give me what you got, cause you know it's getting hot
Fever

(I'm turning flush)
Fever
(I'm burning up)
Fever's got me sweating and you know I'm burning up.
Fever's got me sweating and you know I'm burning up.

Blow up the phone lines
Cause I'm already at the red line.
Somebody call me up the New York Times
This fever's gonna make the headlines.

Blow up the phone lines(yeah)
Cause I'm already (whoa) at the red line.(yeah)
Somebody (whoa) call me up the New York Times
(yeah)
This fever's (whoa) gonna make the headlines (yeah)
headlines, headlines (whoa) headlines

FEVER!
(Fever, fever, fever, fever)

Fever
(Turn up the heat)
Fever
(Come on and get sick with me)
Give me what you got, cause you know it's getting hot
Fever
(I'm turning flush)
Fever
(I'm burning up)
Fever's got me sweating and you know I'm burning up.

Fever
(Turn up the heat)
Fever
(Come on and get sick with me)
Give me what you got, cause you know it's getting hot
Fever
(I'm turning flush)
Fever
(I'm burning up)
Fever's got me sweating and you know I'm burning up.
