I've got these memories, they're all of you and me  
I've been recording them ever since I was seventeen  
Push play back then rewind, I see us meeting for the  
very first time

A mental note of you, you sang a melody  
First part a lifelong symphony  
The prelude to our kiss, my hearts pounding  
And I reminisce

Press repeat  
Cause you wanna see

The first time that I saw your face  
The first time that you spoke my name  
The first time that I heard you say  
There's a first time with me everyday  
The first time that I felt your touch  
The first time I couldn't get enough

Another memory, when you first looked at me  
I hit pause, and then looked in me back  
Under attack, stop me in my tracks  
There you go again, your eyes give me a flashback

Remember that time, we stayed up all night  
I swear we danced until we saw daylight  
Step by step and frame by frame  
Slow motion let me see you again

Press repeat  
Cause I have to see

The first time that I saw your face  
The first time that you spoke my name  
The first time that I heard you say  
There's a first time with me everyday  
The first time that I felt your touch  
The first time I couldn't get enough  
The first time that I heard you say  
There's a first time with me everyday

No matter what I do  
It won't fast forward anything with you  
I know you feel it too  
The first time I saw love I was with you

Press repeat  
Cause you wanna see

The first time that I saw your face  
The first time that you spoke my name  
The first time when we talked all night  
Was the first time lonely since that life  
The first time that I felt your touch  
The first time I couldn't get enough  
The first time that I heard you say  
There's a first time with me everyday

(Repeat once)
