

Fan 3 "Geek Love"

Visit "[Geek Love](#)" on [MotoLyrics.com](#)

With his converse tied real tight he might
Just be my boy always and for all days
The first boy I've known to get straight A's
And appear in everyone of my high school plays
Mozart blatin' from his Volvo
And there's tape on his glasses in charge of hall
passes
Not the kinda guy I mostly been with
I go for thug or Abercrombie and Fitch

With a little bit of skater boy here and there
Not a guy who doesn't even show his underwear
When he sags his pants but I wanna go with him
To the school dance and have him be my date
But I'm afraid that he doesn't know how
To move and everybody would flip and have a cow
Now just because he brings his lunch packed
This situation that I'm facing is jacked

I wouldn't call him fly suspenders and a bow tie
I wouldn't call him the man but he can still hang with
fan

Now this ain't the description, I saw in my dreams
But they say nothin' is quite like it seems
So even though you see his socks when he walks
And his pants are so tight circulations cut off
I think I should give him a chance
And ignore his metal braces and tight pants
But my friends disagree they disapprove of my plans
To make a move, but it would behoove me

To not pay attention to them my friends
Just don't understand just 'cuz he's not the man
They try to act hard now pretend like they floss
We'll see who's laughin' when my geek is their boss
Maybe he doesn't have experience with dates
But I bet the same thing happened to Bill Gates
So even though he doesn't have Sean Jean or
Gerbauds
I got love for my geek I want everyone to know

I wouldn't call him fly suspenders and a bow tie
I wouldn't call him the man but he can still hang with
fan

I wouldn't call him fly suspenders and a bow tie
I wouldn't call him the man but he can still hang with
fan

My geek is smarter than you, better than you, tighter
than you
My geek is smarter than you and I can teach him a
thing or two
My geek is smarter than you, better than you, tighter
than you
My geek is smarter than you and I can teach him a
thing or two

My geek is smarter than you, better than you, tighter
than you
(Pointdexter in da house)
My geek is smarter than you and I can teach him a
thing or two
(Pointdexter in da house)
My geek is smarter than you, better than you, tighter
than you
(Pointdexter in da house)
My geek is smarter than you and I can teach him
(Pointdexter, pointdexter)

I wouldn't call him fly suspenders and a bow tie
I wouldn't call him the man but he can still hang with
fan

I wouldn't call him fly suspenders and a bow tie
I wouldn't call him the man but he can still hang with
fan

Pointdexter in da house
