"No Tears"

Visit "[No Tears](#)" on MotoLyrics.com

In a far away land bright lights are going down

Reachin' out for a hand
Cold hearts walking around.
With a gun at my side
I'm like a sacrifice

Now I feel like I'm jailed
Stop the crying
Have I failed ?

No tears
No children filled with fear

Life bringing war so near

No tears
No children fear

- like a story - like hand in hand

- pain and glory - please understand.

Running wild in war
Dark nights go on and on

Children wait by the door
This fighting feels so wrong

Are we slipping away
Remembering yesterday ?
Gotta live in our world
Take away fear
Have no tears.

No tears
No children filled with fear

Life bringing war so near

No tears

No children fear

- like a story - like hand in hand

- pain and glory - please understand.

Running wild running wild in war

Dark nights go on and on

Children wait by the door

This fighting feels so wrong

Are we slipping away

Remembering yesterday ?

Gotta live in our world

Take away fear

Have no tears.

No tears

No children filled with fear

Life bringing war so near

No tears

No children fear

- like a story - like hand in hand

- pain and glory - please understand.
