What kind of man am I  
A hero in the sky  
Some kind of idle child  
Believing my own lies  
Feel creeping up my spine  
Black holes in my brain  
Why this hurt is driving me insane

Running man  
I'm running for my life  
I'll do anything to arrive  
Where I can be free  
Running man  
I'm running for my life  
One day I see one day I know  
How to be free and where to go  
Running man oh, Running man

A road of no return  
A whisper in the dark  
Memories I try to learn  
A shadow, a fading spark  
Wings of forgetfulness  
I know I'm losing my mind  
Flying with broken wings  
So blind
