God forgive me for I've sinned
I've killed all of my family, all of my kin
I lost all control, may do it again
Please rid the world of this devil within me

I feel guilty, I feel guilty
Guilty for my crime
I won't be cured, I won't be cured
Be cured by serving time
I don't want to inflict, I Don't want to inflict
The world with more despair
Please let me die, please let me die
in the electric chair

You say that I should live
And suffer in misery
Well, if I do there'll only be more tragedy
I won't learn my lesson till I'm dead
You've got the chance to stop my poison
Before it spreads
