[Intro:]

Alright, I said then

Are y'all ready to party with me?

I mean when I say party, I want us to really go there

Are you ready to go there?

Here we go.

[Verse 1:]

Give me what I want,

Somebody has gone

To keep on doing it wrong

Before you know it, you'll be sleeping alone.

'Cause you've been slipping lately

Off this shit I'm taking

You must have bumped your head

If you think that I'm a keep going through this.

[Chorus:]

We're spinning round and round

Like a broken record, don't you tune me out

It's the last time I'm telling you.

You think I'm so predictable

Just read my mind and you would know

That you're running out of time

So you'd better get, get, get, get it right.

[Verse 2:]

You wouldn't know what to do with your life

If I knew you couldn't even know your left from your right.

You say you don't care about me

But we know you'll be right back, begging for me.

Give up and you will be losing

With your lies you're always cruising

Tired of all these promises, making me sick.

[Chorus:]

From spinning round and round

Like a broken record, don't you tune me out

It's the last time I'm telling you.

You think I'm so predictable
Just read my mind and you would know
That you're running out of time
So you'd better get, get, get, get it right.

We spinning round and round
Like a broken record, don't you tune me out
It's the last time I'm telling you.
You think I'm so predictable
Just read my mind and you would know
That you're running out of time
So you'd better get, get, get, get it right.

Spinning round and round
Like a broken record, don't you tune me out
It's the last time I'm telling you.
You think I'm so predictable
Just read my mind and you would know
That you're running out of time
So you'd better get, get, get, get it right.

You better get it right, baby
Because you're running out of time
And you'll wish.
