Fantasia Barrino
"Haunted"

She dory had a beautiful saw
Oh, where did she go?
Oh, I should have known
Oh, where did she go?
The worthiest it's she turned her heart into stone

Ooh, not she's so pal
Oh, where did she go?
Oh, where did she go?
See, decay babe in a mayor

She's kind a light for your life
She's falling, falling, falling fall deep in the night
She's haunted, haunted, haunted, haunted
She's kind a light for your life
You're looking for a way out to solve the fight
She's haunted, haunted, haunted, haunted

It is Dory such a beautiful name?
Unlimited, out of clock
Oh, where did she go?
Oh, where did she go?
So Dory was a minim mistake
Yea, so she never was down
The fairy she hopes
Oh, where did she go?
Seems I can't be nient of me

She's kind a light for your life
She's falling, falling, falling fall deep in the night
She's haunted, haunted, haunted, haunted
She's kind a light for your life
You're looking for a way out to solve the fight
She's haunted, haunted, haunted, haunted

Is like the world is the window to enjoy once pain
And life is too dose, one joy one pain
And both can make hurt, with only gun healing
So posses and hide the key, if you want death feeling
I'll be running like jogging, I guess you could call it
force

Sunny is my pack, the merely means my Porche lie
My dust lie caused my conversations
Shall haunting this world like stars in constellations
Ah, come that way, I'll be honest in all the patience
The several things in life to be honest in complications
Is hard to be no complaining when faces will not be
facing
You may regard these faces, she may be object this
sneek

She's kind a light for your life
She's falling, falling, falling fall deep in the night
She's haunted, haunted, haunted, haunted
She's kind a light for your life
You're looking for a way out to solve the fight
She's haunted, haunted, haunted, haunted
