

Fantastic Four "I Love You Madly"

Visit "[I Love You Madly](#)" on MotoLyrics.com

There's just something about you
I simply adore
This is what keeps us together
And makes my love for you grow

Oh, oh, oh, oh
I found more joy
In you, my darling
Than I could ever find
In any other girl

And I wouldn't trade it, oh, no
For nothing in this world, baby
(Baby, baby, I love you madly)
Cause I could never let you go
I love you madly

If you should ever choose another
It will shatter all of my dreams
But my love will still
Pour for you, darling
Pour like water from
A flowing stream, oh, oh

If you should ever leave me
It will surely, surely
Surely grieve me
I wouldn't want to live
Without the love you give

Cause I need you badly
(Baby, baby, I need you badly)
I love you, love you
(Baby, baby, I love you madly)
Love you, love you, love you madly

They say that loves comes and goes
Just like the morning sun
But I love you so much more, my darling
Than anybody could ever love anyone

Baby, baby, come closer

(Closer) just a little bit
Closer (closer) and let me
Whisper in your ear (whisper)

Darling, I love you today
More than I did yesterday
But not half as much
As I'll love you tomorrow

You've got everything
Everything, everything
I've been searching for
And I'm so grateful
So very grateful that
I won't have to look no more

Cause I found more joy
In you, my darling
Than I have ever found
In any other girl

And I wouldn't trade it, oh, no
For nothing in this world, baby
(Baby, baby, I love you madly)
I love you, love you, love you
(Baby, baby, I need you badly)
Love you, love you madly

And I need you, need you
Need you, need you so badly
(Baby, baby, I love you madly)
