

Fantastic Four

"You Gave Me Something"

Visit "[You Gave Me Something](#)" on MotoLyrics.com

Everything is alright

(Everything is alright)

From out of the darkness

Into the light

You gave me hope, baby

You gave me sight

You gave me something

That I could be proud of

You gave me comfort

Darling, you gave me love

Inspiration

(Came from your embrace)

And there's no one

That can take your place

I never had a love

Like this before

And with you here

I won't go back no more

You gave me something

That everyone lives for

The joy that makes

Life so grand
You filled my heart
With something so special
That brings out the best
In a man, ooh, ooh
And that was love
Ooh, ooh, a special love
You gave me something
That never grows old
A treasure more precious
Than diamonds and gold
Something to live for
To dwell in my heart
To love and to cherish
Till death do us part
Everything is alright
(Two hearts beat as one)
We've got a love
That outshines the sun
My whole life before me
It's perfectly clear
Now there's one thing
I want the whole world to hear
Baby, you gave me something
That everyone lives for

The joy that makes
Life so grand
You filled my heart
With something so special
That brings out the best
In a man, ooh, ooh
And that was love
Ooh, ooh, a special love
Everything is alright
(Everything is alright)
You gave me something
More precious than gold
(Everything is alright)
You gave me something
That will never go away, baby
(Everything is alright)
Everything is alright
(Everything is alright)
You gave me something so wonderful
