(Keller/Hilderant)

Taking the shade out of the sun
Whatever made me think that I was number one
I oughta know easy come, easy go
Sitting it out, spinning the dial
Thinking about the chump I've been
I have to smile
Didn't I know easy come, easy go

She wasn't kind, I wasn't smart
I lost my mind and fell apart
I had to find myself in time
Now I can start all over again
Hanging around taking it slow
Happy I found
I still can smile and dig the shoe
Letting me know easy come, easy go
