Don't be lonely
Be lucky in love
Travel the whole world
The class from above

Unlucky with some things
Then again no
My men are my whole life
And this you must know

Islands of wealth, isle of gold
Ripples of love, true love
I was your pearl, open me
Was your gift from above, love heart

Islands of wealth, isle of gold
Ripples of love, true love
I was your pearl, open me
Was your gift from above, love heart

I felt that you owned me
That isn't true
You always taught me
Think more of you

I'd never leave you
But sometimes it's fate
Cruel hands should strike me
Should cut off our date

Islands of wealth, isle of gold
Ripples of love, true love
I was your pearl, open me
Was your gift from above, love heart

Islands of wealth, isle of gold
Ripples of love, true love
I was your pearl, open me
Was your gift from above, love heart

A maid is always handy

A servant for my shoes
Always travel first class
I don't need anything like that, I just need you

Islands of wealth, isle of gold
Ripples of love, true love
I was your pearl, open me
Was your gift from above, love heart

Islands of wealth, isle of gold
Ripples of love, true love
I was your pearl, open me
Was your gift from above, love heart

Islands of wealth, isle of gold
Ripples of love, true love
I was your pearl, open me
Was your gift from above, love heart

Islands of wealth, isle of gold
Ripples of love, true love
I was your pearl, open me
Was your gift from above, trust me
