Think of a number  
Divide it by two  
Something is nothing,  
Nothing is nothing!

Open your eyes  
Think of a number,  
Don't get swept under!  
A number's a number.

Think of a number  
Divide it by two  
Something is nothing,  
Nothing is nothing!

Open your eyes  
Think of a number  
Don't get swept under!  
A number's a number.

A chance encounter you want avoid!  
The inevitable,  
So you do, oh, yes you do!

A chance encounter you want avoid!  
The inevitable,  
So you do, oh, yes you do!

The impossible  
The impossible

Open a box  
Tear off the lid  
Then think of a number  
Don't think up an answer

Open your eyes  
Think of a number,  
Don't get swept under!  
A number's a number.

Open a box  
Tear off the lid  
Then think of a number  
Don't think up an answer

Open your eyes  
Think of a number,  
Don't get swept under!  
A number's a number.

A chance encounter you want avoid!  
So you do, oh, yes you do!

A chance encounter you want avoid!  
The impossible,  
So you do, oh, yes you do!

The impossible  
The impossible  
The impossible!

I'm going to impossible  
I'm sure you do  
I'm coming to impossible  
I know you do

I'm going to impossible  
I'm sure you do  
I'm coming to impossible  
I know you do

I'm going to impossible  
I'm sure you do  
I'm coming to impossible  
I know you do

I'm going to impossible  
I'm sure you do  
I'm coming to impossible  
I know you do

The impossible  
The impossible

So you do!  
Oh, yes you do!
