You never get me slipping when I drop it down
Will never know what's taking...
Drop it down, drop it down!
This when you drop it down!
You never get me slipping when I drop it down.
Will never know what's taking...
Drop it down, drop it down!
This when you drop it down!

This is when you drop it down, son, burn your... head,
Thoughtless machinery,
Now I need no moped,... lamborghini off,
Drop to her...
I don't care, I don't care...
You can sense it in the air like two dice...
We can take it there, suck it...

Chorus: (x2)
You never get me slipping when I drop it down
Won't even know what's tripping...
Hear it girl, hear it girl
Drop it down, drop it down!
This when you drop it down!

Look how I drop it down...
Two pocket go round in round,
Shake it 'till is...
Baby I'm a star,
Missing on the... quicker on a...
Got the liquor I'mma...
... when I'm in your town bitch,
Drop it down, drop it down!

Chorus: (x2)
You never get me slipping when I drop it down
Won't even know what's tripping...
Hear it girl, hear it girl
Drop it down, drop it down!
This when you drop it down!

Drop it down in mission, got me looking like a cartoon,

But this is real, got your heart wound!
Rose, and keep the hater shit,
I'm doing this... is none greater bitch!
Si like the bad habit, it ain't easy to drop,
Money like two rabbits and they're trying to chop that...
Is like the g got the game on...
So do your thing like...
I'm heavy metal, take...
Like two dice...
Drop me down!

Chorus: (x2)
You never get me slipping when I drop it down
Won't even know what's tripping...
Hear it girl, hear it girl
Drop it down, drop it down!
This when you drop it down!
