Chorus:

Hey, where's your girlfriend?  
You're looking man  
I'm going so sexy,  
I thought you never seen a girl like me  
Getting loose this is what I wanna do  
So tell me... you know I'll keep you up all night  
She said she boom, she boom, yeah, yeah  
She boom, she boom, yeah, yeah she boom  
She boom, she boom, yeah, yeah she boom

Mesmerize by that body  
Saw you all the way across the lobby  
..if we can have a party cause we can have a private  
party  
Tell me girl, are you nice or naughty  
Cause I ain't looking for a wife tonight  
Chill out girl, it will be alright  
Don't tell nobody, cause it's just one night  
Cause I got the style, the ..the girl's...  
Is that why, you asked why  
Enough about me, let's talk about you  
What you liking, what you on to  
..the best of what you'll do  
..and not how are you  
You're the main attraction, I need a preview  
What you want girl, make it...
