(Don't look now)

(Kev Nish):

I see you dancing on that speaker box, girl  
What's your name?  
I see you textin' on that BBM  
Can we exachange?  
I got two glasses at my table, can i show you the way?  
(comm'on girl)  
Tonights the night to let it go go  
girl it's ok

(Yea)

(Chorus)

I'm not looking for no strings  
You're not looking for a ring  
If you're ready for this fling, then meet me in the back  
I never knew it would be like this  
Such an unexpected twist  
Strated off wiht just a kiss  
I don't know how to act

(Keri Hilson):

Dear heart, i promised you i'd take it slow  
Dear love, I know i swore on everything i own  
But i can resist  
O, it's just one kiss

Don't look now  
You got me going, I'm going, I'm gone (2x)

But i can't resist  
O, it's just one kiss  
Don't look now

(J-Splif):

My heart is pumping like bass before i pick you up

The way we stole eachother's hearts,  
we playing stick 'em up  
I take a shot of Ciroc  
to get me in that zone now  
She took a step out of that door,

From head to toe, she "O wow"

(Chorus)

I'm not looking for no strings  
You're not looking for a ring  
If you're ready for this fling, then meet me in the back  
I never knew it would be like this  
Such an unexpected twist  
Strated off wiht just a kiss  
I don't know how to act

(Keri Hilson):

Dear heart, i promiseded you i'd take it slow  
Dear love, I know i swore on everything i own  
But i can resist  
O, it's just one kiss

Don't look now  
You got me going, I'm going, I'm gone (2x)

But i can't resist  
O, it's just one kiss  
Don't look now

There'ssomething about this girl  
She shaking up my world  
She got me doing things, i never did before  
Damn, Theres something about this girl  
She shaking up my world  
she got out my zone  
I'm loosing all control (Don't look now) (2x)

Dear heart i promiseded you i'd take it slow  
Dear love, i know i swore on everything i own  
But i can't resist  
O, it's just one kiss  
Don't look now

Don't look now  
You got me going, I'm going, I'm gone (4x)  
Don't look now
