She's a sunset stripper, a hollywood freak
She ain't comin' to yo' party 'less she walk in fo' free
She got friends spendin' ends and a mercedes benz
Hike her skirt up to her ass so she can show off her
legs

Watch out now there she go go
Table dance queen, showin' off her no nos
Dip it down low, she can go in slow mo
But bring it back down, hopin' no for no no (?)
The bo don't know, don't hurt nobody (?)
Let her wild out, livin' up the party
The way that she shakes, good lord almighty

She got it right with her bad attitude
She got the time but it ain't for you
She got big sunglasses and her hair in a do
She's on the move, move, move, move, move

It's in the way that she walks and the way that she talks
It's in the way that she struts and the way that she
flaunts
It's in the way that she do all the things that she do
She's something, she's something, she's something

She makes the guy say daym, ladies say ow
People say wow, check the profile
Nice cheekbones with an ass to match
And a pricetag more than an average man
She's built in a lab in an insitution
Triple XG she's super human
Too hot to top, might melt the movement
And in the crib she's home improvement
But, the cat got claws, drop them jaws
Make the boys in the hall spring in falls
Nothin' but a hound dog on yo trail
You got what it takes, don't break a nail
Don't need a sex tape to make sex sale
She does what she does, and she does it well
From the front to the back she's fly as hell
That girl will send you to jail

She got it right with her bad attitude

She got the time but it ain't for you
She got big sunglasses and her hair in a do
She's on the move, move, move, move, move

It's in the way that she walks and the way that she talks
It's in the way that she struts and the way that she
flaunts
It's in the way that she do all the things that she do
She's something, she's something, she's something

Hair back, legs high, you're somethin' amazing
Hello, goodbye, you're drivin' me crazy
All day, all night, only you can save me
Yeeeah, yeeeah, yeeeah

I like the way she moves in designer shoes
All eyes on her when she walks in the room
It's a kodak moment, it's slow motion
Come right here, gotta perfect view
Of a real goddess, the world's finest
If looks could kill, I'm suicided
Hairs shinin', skin is flawless
Guys all around with their open wallets
Ready to spend or ready to bend over
Backwards and they ready again
It's the power of the b and yo boys a beast (?)
Good thing I'm broke and can't pay the fee
But if you wanna taste, grab yo bag in town(?)
Cross an arm and a leg to take her out
Then nine months later, baby's poppin' out
She gonna leave yo ass take the whole daym house

She got it right with her bad attitude
She got the time but it ain't for you
She got big sunglasses and her hair in a do
She's on the move, move, move, move, move

It's in the way that she walks and the way that she talks
It's in the way that she struts and the way that she
flaunts
It's in the way that she do all the things that she do
She's something, she's something, she's something
She's on the move, move, move, move, move
She's on the move, move, move, move, move
