I can feel it in the air today  
Sunny side a smile on your face.  
I know weathermen but when I'm with you,  
I know, I know, there will be no rain  
There will be no rain,  
There will be no rain,  
Only sunshine.  
There will be no rain, (ah, ah)  
I know weathermen but when I'm with you,  
I know, I know there will be no rain.

Yeah,  
Buzzin' like butterflies, ooh that feeling  
Like, like sunshine, a little rain can't kill it  
You're my summertime now, yeah that's chillin'  
Swimsuit, backyard  
Damn, she's grillin'! Cooler than the breeze,  
Girl, got me groove it to the beat,  
Leanin' like palm trees  
Giving you the keys, anywhere you please  
In a fantasy that we never wanna leave.

I got my mind made up in the clouds,  
It's easy cause you're good for me.  
And it's only getting brighter now,  
Cause I know you're so good for me.

I got my mind made up in the clouds,  
It's easy cause you're good for me.  
And it's only getting brighter now,  
Cause I know you're so good for me.

I can feel it in the air today  
Sunny side a smile on your face.  
I know weathermen but when I'm with you,  
I know, I know, there will be no rain  
There will be no rain,  
There will be no rain,  
Only sunshine.  
There will be no rain, (ah, ah)  
I know weathermen but when I'm with you,

I know, I know there will be no rain.

Feelin' brand new with the sunshine,  
Afternoons is always me and you time,  
Dreamin' bout the hills what it'd be like,  
Kick back, let's relax, hit the recline.  
Kickin' them smooth kinda raps, hear the soundtrack,  
Beauty like that, I don't stand a chance,  
Save the last dance, summertime jams.  
Ain't no other plans, let's enjoy it while it lasts.

I got my mind made up in the clouds,  
It's easy cause you're good for me.  
And it's only getting brighter now,  
Cause I know you're so good for me.

I can feel it in the air today  
Sunny side a smile on your face.  
I know weathermen but when I'm with you,  
I know, I know, there will be no rain  
There will be no rain,  
There will be no rain,  
Only sunshine.  
There will be no rain, (ooh, ah)  
I know weathermen but when I'm with you,  
I know, I know, there will be no rain.

There will be no rain,  
Say there will be no rain,  
Girl I see that sunshine, that sunshine  
On a cloudy day, day, there will be no rain...
