

## Far From Finished

### "Afraid Of Fear"

Visit "[Afraid Of Fear](#)" on MotoLyrics.com

Make as much sense as you can  
Take a deep breath so it sinks in  
Take a deep breath, take a deep breath  
Close your eyes, close them tight  
Re-assess, and make it right  
Under the spotlight  
Under the spotlight

Every eye is on you, every ear is listening  
Turn back the clocks, find where you lost  
They're listening  
All the eyes are on you, every ear is listening  
Repair the cracks, resist, relax  
They're watching

Take your first thought, eyes on the clock  
Make your next wish, and try your best  
Just try to make sense, avoid the pretense

Afraid of the fear, don't let me near  
With your best interest in mind  
So paranoid, you better avoid  
Don't take away my complaints  
With your best interest in mind
