Holidays spend in the institution
Remember the time when your mind was raped
Where is the restitution for everything they take
Seeing life through a looking glass
Buried in the sand so you can't escape
A generation forced to hate
The feeling they have to fake

Look away you don't wanna see this
This ain't no fucking dream
It happens everyday and we hear them say

One more time scream it from the rafters
Get out of my life get out of my head
Programming tomorrows little officers
One dose at a time 'till they're bred
One more time can you make it shatter
Get out of my life get out of my head

We know exactly what they're after
And if we were all gone tomorrow would they ever even
know
When kids start trading their heroes for ghosts

We can't handle you anymore
It's all your fault no you'll have to pay
With the rest of your life never knowing emotions
Never knowing the words to say
You're somebody's problem now
Good luck it might turn out ok
So little by little and dose by dose
They're taking you away

Regrets and falsehoods
Telling me you ain't no good
It's time to fight them back
Start living life for you
