Tell me how does it feel to lie right to my face
When in the back of your mind you will always
remember
That night that you spent alone with him
Can't confess just get dressed move on with it move on

And i could never tell when you were lying
Cause you're good at what you do and it's only me you
lose
And you were so convincing when denying
Do you lie to your new guy
Or do you sit and watch him cry

Tell me how did you think that i'd never find out
When i'm friends with your friends and i'm nicer than
you
So they tell me whatever and not really care
But i do so i hate you i made you swear

And after all we went through i was still friends with you
But tonight i found out what you're all about
So i'm not gonna bother to call you
As of tonight we are finally through
And every memory of us i hope i forget
Every dinner and movie every date i regret
Cause to me they don't mean anything
Cause you lied you're so fake you're so mean

And i could never tell when you were lying
Cause you're good at what you do
And it's only me you lose
And you were so convincing when denying
And do you lie to your new guy
Or do you sit and watch him cry

I could never tell when you were lying
Cause you're good at what you do
And it's only me you lose
And you were so convincing when denying
And do you lie to your new guy
Or do you sit and watch him cry
