

Far From Finished

"Push The Button"

Visit "[Push The Button](#)" on MotoLyrics.com

There's no earthly way of knowing
Which direction we are going
There's no knowing where were rowing
Or which way the rivers flowing

This is the only way

Just push the button, I can't go on forever
No longer will I try
Just pull the plug
I can't go on forever
Won't silently stand by

There's no earthly way of knowing
Which direction we are going
Not a spec of light is showing
So the danger must be growing

Silently, so quietly
Lead the operation with thought and meditation
These crucial times call for crucial minds
Silently, so quietly
Failed to represent me, thoroughly, intently
These hard pressed times call for hard pressed minds
