It was early in the morning
And we never heard the warning
When the bombs came flying down
And everyone was screaming
When it started raining bullets
With my finger on the trigger
But the safety lock was on
That's when i heard that song say
.....that's when i heard that song

[Chorus]

Say shoot me now so that i won't see
My home town in catastrophe
So shoot me now cause I'd rather die
Then live in fear and lock my self inside

The streets were Hardly moving
And all I head was shooting
And screaming all around
It was such an awful sound to hear
The taxi cab colliding
With the city bus that's slidding down the street but
upside down
It was such an awful sound
.....Was such an awful sound

[Chorus]

So shoot me now so that i won't see
My home town in catastrophe
So shoot me now cause I'd rather die
Then live in fear and lock my self inside

I've only heard five shots from your six shot gun
I know there must be one left i know there must be one
I've only hear five shots from your six shot gun
I know there must be one left i know there must be one
I've only heard five shots from your six shot gun
(I've only heard five shots)
I know there must be one left i know there must be one

I've only heard five shots from your six shot gun
(I know there must, know there must be one)
I know there must be one left i know there must be one

[Chorus]

So shoot me now so that i won't see
My home town in catastrophe
So shoot me now cause I'd rather die
Then live in fear and lock my self inside
Lock my self inside
Lock myself inside
Lock myself inside
