Well I know you  
You're always the stupid one had to bring a loaded gun  
And apathy kills  
The black girls swear you're the coolest white girl  
Around

This time I know I'm the last one  
To ever find out about something you wanted to say...

CHORUS

Look at you now  
I will  
But won't follow you down  
Look at you now  
I did  
But I don't want to do it again

I heard about you  
Spending your nights with the hip drug you read about  
I'll be there  
When they carve your name on a stone at the edge of  
Town

This time I know I'm the last one  
To ever find out about something you wanted to say...

CHORUS

This time I know I'm the last one  
To ever find out about something you wanted to say...

CHORUS (X 2)
